

## Public Information Workshops for Part 150 Airport Noise Compatibility Planning Study Fort Lauderdale-Hollywood International Airport

The Broward County Aviation Department (BCAD) invites you to attend a public workshop to provide information on the Part 150 Study for Fort Lauderdale-Hollywood International Airport (FLL). Five workshops will include displays that will present information. Topics include the Part 150 Study process, project schedule, an introduction to noise, and information about modeling aircraft noise exposure.

The workshops will be an "open house" format at different locations in communities around the airport. There will be no formal presentation. This will provide attendees with the maximum opportunity for one-on-one interaction and sharing of information and concerns. You may attend any workshop and at any time during the open house. Now is the time to participate and express your concerns about noise generated by aircraft operating at FLL. Feedback received will be considered throughout the development of the Study.

BCAD recently began the study to evaluate the compatibility of FLL with the surrounding communities. This study, a "Part 150 Study," will follow the process outlined in Title 14 of the Code of Federal Regulations (CFR) Part 150, *Airport Noise Compatibility Planning*.
